The following answer to written submitted question:

Could you please clarify how the Compensation Schedule works and how you want me to provide prices for the RFP? I do not understand the Description Unit to Unit Price to Install. Are you asking how many (Units) we can install for \$0-\$1000 etc OR how much the (Description) cost per (Unit) if the entire invoice is worth \$0-\$1000 etc?

**ANSWER: The compensation schedule is asking for a cost per unit.
For example, item 2a is asking for the unit prices to install a 6' Painted Bike Lane Symbol. The first unit price (\$0-1000) would be what you charge per bike lane symbol if we have an order of under \$1000 worth of bike lane symbols. The second price (\$1000-5000) is what you would charge per symbol if the order includes between \$1000 and \$5000 worth of bike lane symbols. The dollar amount thresholds do not refer to the total cost of the invoice, only the total cost of that individual line item.**
