37. CERTIFICATES AND LICENSES: The Contractor, at time of proposal, shall possess the correct occupational licenses, all professional licenses or other authorizations necessary to carry out and perform the work required by the City of Naples and Collier County for this project pursuant to all applicable Federal, State and Local Laws, Statutes, Ordinances, and rules and regulations of any kind.

If the contractor believes that any particular work is not within the scope of the project, is a material change, or will otherwise require more compensation to the contractor, the contractor must immediately notify the City in writing of this belief. If the City believes that the particular work is within the scope of the contract as written, the contractor will be ordered to and shall continue with the work as changed and at the cost stated for the work within the scope.

39. CONTRACTOR PERSONNEL: The City of Naples shall, throughout the life of the contract, have the right of reasonable rejection and approval of staff or subcontractors assigned to the work by the contractor. If the City reasonably rejects staff or subcontractors, the contractor must provide replacement staff or subcontractors satisfactory to the City in a timely manner and at no additional cost to the City. The day-to-day supervision and control of the contractor's employees and sub-contractors is the responsibility solely of the contractor.

41. EXCEPTIONS: Proposers taking exception to any part or section of the solicitation shall indicate such exceptions on the proposal form. Failure to indicate any exception will be interpreted as the proposer's intent to comply fully with the requirements as written. Conditional or qualified proposals, unless specifically allowed, shall be subject to rejection in whole or in part.

42. FAILURE TO DELIVER: In the event of the contractor to fail to deliver services in accordance with the contract terms and conditions, the City, after due oral or written notice, may procure the services from other sources and hold the contractor responsible for any resulting purchase and administrative costs. This remedy shall be in addition to any other remedies that the City may have.

43. FAILURE TO ENFORCE: Failure by the City at any time to enforce the provisions of the contract shall not be construed as a waiver of any such provisions. Such failure to enforce shall not affect the validity of the contract or any part thereof or the right of the City to enforce any provision at any time in accordance with its terms.

44. FORCE MAJEURE: The contractor shall not be held responsible for failure to perform the duties and responsibilities imposed by the contract due to legal strikes, fires, riots, rebellions and acts of God beyond the control of the contractor, unless otherwise specified in the contract.

The proposer may also be required to give a past history and references in order to satisfy the City in regard to the proposer's qualifications. The City may make reasonable investigations deemed necessary and proper to determine the ability of the proposer to perform the work, and the proposer shall furnish to the City all information for this purpose that may be requested. The City reserves the right to reject any proposal if the evidence submitted by, or investigation of, the proposer fails to satisfy the City that the proposer is properly qualified to carry out the obligations of the contract and to complete the work described therein. The records so created shall be open to inspection by the City.

49. RECOVERY OF MONEY: Whenever, under the contract, any sum of money shall be recoverable from or payable by the contractor to the City, the same amount may be deducted from any sum due to the contractor under the contract or under any other contract between the contractor and the City. 50. REQUIREMENTS CONTRACT: During the period of the contract, the contractor shall provide all the services described in the contract. The contractor understands and agrees that this is a requirements contract and that the City shall have no obligation to the contractor if no services are required. Any quantities that are included in the scope of work reflect the current expectations of the City for the period of the contract. The amount is only an estimate and the contractor understands and agrees that the City is under no obligation to the contractor to buy any amount of services as a result of having provided this estimate or of having any typical or measurable requirement in the past. The contractor further understands and agrees that the City may require services in excess of the estimated annual contract amount and that the quantity actually used whether in excess of, or less than, the estimated annual contract amount and that the quantity actually used shall not give rise to any claim for compensation other than the total of the unit prices in the contract for the quantity actually used.

51. TERMINATION FOR CONVENIENCE: The performance of work under the contract may be terminated by the City in whole or in part whenever the City determines that termination is in the City's best interest. Any such termination shall be effected by the delivery to the contractor of a written notice of termination of at least seven (7) days before the date of termination, specifying the extent to which performance of the work under the contract is terminated and the date upon which such termination becomes effective. The fifteen-day period will begin upon the mailing of notice by the City. If the contractor fails to cure the default within the seven (7) days specified in the notice and the contract is terminated for failure to perform satisfactorily, the contractor shall be entitled to receive compensation for all reasonable, allocable and allowable contract services satisfactorily performed by the contractor up to the date of termination that were accepted by the City prior to the termination. In the event the City terminates the

contract because of the default of the contractor, the contractor shall be liable for all excess costs that the City is required to expend to complete the work under contract.

SCOPE AND EVALUATION

Scope of Services

Gordon River Park Master Plan – Request for Qualifications (RFQ)

The following preliminary scope of services is presented for consideration and development of proposals. Some elements identified below may be eliminated or modified for this particular project. Final elements will be determined during contract negotiations with the selected consultant.

The cost to prepare the proposal and travel to project interviews shall be the full responsibility of the proposer.

PURPOSE

The City of Naples has designated 15.2 acres of land located directly on the Gordon River as the location of a new park. Current and past functions of the land included a horticultural waste site, solid waste division offices, parking and storage site. It is located across the street from the 2-year old 4.2 acre City of Naples Dog Park which may be linked to the new park. The park is also located between a future 56 single family home private development site to the South and the City of Naples warehouse, storage site, and administrative offices to the North. The planned park will be a part of the overall Gordon River Greenway, a large linear park of over 175 acres following the river and connecting a county park, conservation areas, a local conservation organization campus and a zoo. The city park will be joined to the greenway by a pedestrian bridge over the Gordon River near the Naples Airport. The stakeholders include the City of Naples government, various non-profit organizations, with five abutting neighborhoods. There is potential for a viewing boardwalk through mangrove fringe near a filter marsh feature. There may be a potential riverfront connection to the City of Naples Anthony Park also located on the Gordon River, north of the new park.

CITY OF NAPLES

The City of Naples is located in Collier County in southwest Florida and was incorporated on December 1, 1923. The City is approximately fourteen square miles in area, with a year round population of approximately 19,000, increasing to over 33,000 during the winter months. The Collier County population is 321,000 with an increase to 387,000 during the winter months. As a result, the daily service population is significantly greater than the permanent or seasonal population; however, no accurate measurement is available. Naples is a full service City (police, fire/rescue, water, sewer, solid waste, recycling, parks and recreation, streets and stormwater) operated under the Council-Manager form of government. The City employs approximately 450 people.

The City of Naples is considered one of the nation's premier communities offering residents and visitors a wide array of outstanding cultural and recreational activities.

Nestled on the Gulf of Mexico with a sub-tropical climate, and many tree-lined streets, there are ample opportunities for shopping, dining, and recreation. The crime rate is low and quality health care services are available.

The overall area population has increased 28% between 2000 and 2010. Housing and commercial services have expanded beyond the borders of the City into the adjacent unincorporated areas of Collier County, and while these unincorporated areas are also referred to as “Naples”, many County residents may not understand that they do not reside within the City. City residents are well aware of the distinction.

PROJECT TIMELINE

It is the intent of the City, subject to the recommendations of the selected consultant, to substantially complete the community design charette process prior to November 15, 2013 and to present a Conceptual Plan for City Council consideration prior to December 11, 2013. Final Master Plan with revisions must be presented to the City prior to February 24, 2014.

SCOPE OF SERVICES

It is anticipated that the master plan process will consist of two phases as described below. Public involvement will be an important element of this project. A four to six month effort is envisioned, but the City may be interested in an accelerated schedule.

Phase 1 - Park Programming

Phase 2 - Master Plan Development

Public Involvement:

This project shall include public involvement, with participation from City Council, City staff, CSAB (Community Services Advisory Board), PAB (Planning Advisory Board), DRB (Design Review Board), neighborhood associations, and community stakeholders. Tasks shall include:

- Assist City staff with developing and completing a public involvement process that encourages participation.
- Attend and facilitate 3 public workshops to keep community members informed and solicit input from the public during the planning processes. The City's staff will assist the design consultant at the public forums by capturing and transcribing community comments and assisting with the facilitation of break-out groups or a charette format.
- Provide graphic and written information as required to support public outreach effort.

Anticipated City and Stakeholder Reviews:

- Prepare written and graphic materials to assist with presenting the project at 5 formal reviews by a committee consisting of City staff members and community members.
- Present project updates at 3 City Council meetings, 2 CSAB meetings and 1 PAB meeting (meetings may be held jointly or separate as determined by City staff and firm).

Permitting and Environmental Review:

- Identify construction permitting/regulatory requirements required by Federal, State and Local agencies.
- Meet with project manager and City Departments in advance of identifying permitting/regulatory requirements and after determining permitting/regulatory requirements.
- Develop written report on construction permitting/regulatory requirements required by Federal, State and Local agencies. Permitting time lines must be identified.

Phase 1 Tasks - Park Programming:

- Participate in preliminary meeting with City Manager, Community Services Department, Planning Department and Building Department staff to review project parameters, gather necessary materials, identify additional information required, review community involvement strategies and establish project timetable.
- Conduct site visit with City staff.
- Prepare a report that summarizes identified issues and opportunities.
- Present information to City Council based on direction from City staff. An essential component of the meeting is to understand City Council's sentiment towards the needs, desires, opportunities and constraints of park site and programming in advance of the community workshop.
- Facilitate and conduct a community workshop to ascertain public sentiment towards needs, desires, opportunities and constraints.
- Based upon the results of site analysis, technical input and public workshops, develop a preliminary park design program detailing proposed use, design character and design criteria.

Phase 2 Tasks - Master Plan Development:

- Assist City staff in establishing the final design program and evaluation criteria for Master Plan design alternatives.
- Prepare two-three Master Plan design alternatives based upon the approved design program.

- Prepare a narrative which summarizes the existing conditions, design alternatives, phasing options, construction cost estimates, operational/maintenance cost models (for each alternative) regulatory criteria, and identifies issues which require further study at the next stage of project development.
- Meet with the City staff to review the design alternatives.
- Conduct a community workshop to solicit input on the Master Plan design alternatives.
- Based on input from staff, develop consensus Master Plan.
- Create a Consensus Plan (draft Master Plan) based upon the preferred elements from the alternative designs that is consistent with the approved design program and direction from the community workshops and City Council.
- Meet with appropriate City permitting authorities to review initial Consensus Master Plan.
- Meet with appropriate utilities to review Consensus Plan direction and determine impacts on existing utilities and utility needs for the site.
- Provide briefing to City Council on the information received during the community workshop, permitting authorities and utilities. Solicit direction from City Council for a Consensus Master Plan.
- Update cost estimate and maintenance/operational cost model to fit Consensus Master Plan design.
- Create a draft implementation strategy/phasing program for development of the park that identifies priorities for improvements, and a timeline for implementing improvements. Ensure priorities are consistent with direction received from the community workshops and City Council.
- Phase 1 improvements may be limited to a budget of \$2 million dollars.
- Provide and estimated cost for each phase of development.
- Identify scope and schedule of permitting process.
- Attend meetings with the City staff team to review Consensus Plan and phasing program.
- Conduct community workshops to solicit input on the Consensus Plan.
- Refine the Consensus Plan, phasing and cost estimates, incorporating gathered input from community workshop, City Council and staff meetings.
- Develop Master Plan in two phases. Phase One will consider a \$2 million dollar budget and Phase Two will consider additional design elements with cost estimate.

GORDON RIVER GREENWAY

The Gordon River Greenway is a cooperative project of government, non-profit organizations, businesses and citizens benefitting residents and visitors in Collier County. Taking advantage of the natural beauty along the Gordon River in one of the last unspoiled areas of urban Naples, the Gordon River Greenway will stretch two miles from Golden Gate Parkway toward the heart of Naples, ending at Central Avenue. Weaving among the mangroves and other native plants, the Greenway will feature:

- paved pathways
- canoe and kayak launch and rental sites
- scenic overlooks
- picnic shelter areas
- wildlife viewing stations
- decorative bridges
- benches
- educational signage and interpretive graphics
- restrooms and other amenities
- rear entrance access to the Naples Zoo and the Conservancy of Southwest Florida
- access to the proposed Naples Dog Park

The Greenway is being designed and built to accommodate individuals and families enjoying a variety of activities. The 12-foot wide pathways and 8-foot wide elevated

boardwalks will be ideal for walkers, hikers, joggers, cyclists, in-line skaters, and skateboarders. They are wide enough for parents pushing baby carriages, people walking dogs as well as individuals in wheelchairs.

Greenways are attractive spots for birders, nature photographers and other artists, environmental and “greening” enthusiasts, and travelers who seek out new greenways and trails to explore. When the launch areas are complete, paddlers in canoes and kayaks will have access to a new landscape to explore.

The first section of the Greenway opened in 1992. It consists of a 1½-mile paved loop trail adjacent to the Naples Municipal Airport and along the eastern edge of the river. Currently, this area is closed for removal of invasive plant species, including Australian pine. When it reopens, parking is available in a handicap-accessible lot on North Road, on the western side of the airport. The next section of the Greenway, starting at Golden Gate Parkway and going south past the Conservancy and the Naples Zoo, is in the planning and development phase now.
